# ZACHARY LEONARDO

Bloomsburg, PA | www.zacharyleonardo.com

570.441.0895 | zachleonardo15@gmail.com

Full-stack software developer with 2+ years of experience designing and building service-oriented web applications. I graduated from Allegheny College where I pursued a degree in Computer Science. I consider myself a creative person with a passion for technology. Having experience working with Java/Angular/React, I am looking for an opportunity to continue growing my skillset in the web development field.

## PROFESSIONAL EXPERIENCE

**FULL-STACK SOFTWARE DEVELOPER**

Revature LLC | Remote

Oct. 2020 – Apr.2023

- Engaged with clients and business leaders to gather requirements and translate them into technical solutions.
- Developed and maintained core Java backend applications, ensuring scalability, performance, and security.
- Designed and implemented React frontend components for user interfaces, enhancing user experience.
- Conducted testing and debugging of software components and addressed any bugs or issues identified by QA team.
- Worked closely with a senior developer, coordinating efforts and ensuring timely delivery of projects.
- Collaborated with a team of 15+ offshore developers, providing guidance, reviewing and approving production-ready code, and facilitating effective communication.
- Utilized Agile methodologies and managed a kanban board of user stories for monthly releases, ensuring efficient workflow and on-time delivery.
- Partnered with cross-functional teams and external vendors to integrate software components, ensuring seamless functionality and interoperability.
